

Mr. Leonard Swift

Manager, Automation

**The St. Lawrence Seaway
Management Corp.**

- Leonard Swift is the Manager, Automation for the St. Lawrence Seaway Management Corporation.
- Leonard has worked at the Seaway for over 19 years in both Electrical Engineering Department management and corporate project management roles. Leonard brought 25 years of automation system design and implementation experience to the Seaway from previous jobs.
- Since 2004, Leonard has led the visioning and planning of future automation within the corporation. In 2013, Leonard was assigned as the Electrical Project Lead for the \$102M Seaway Modernization project.
- In his current role as Project Manager for the Voyage Information System (VIS), Leonard is leading efforts to define user requirements, design and deploy software components.
